

## Trainer guidance: How to approach an OGD initiative

Learning materials provided by the Guide on Open Government Data (OGD) Action Planning for Sustainable Development can be used for sensitization and training of government officials and other OGD actors. This document aims to provide guidance to trainers who will use the learning materials on *How to approach an OGD initiative* as a training module on this topic.

Module Overview		Notes
Type	Lecture/presentation	Followed by Q&A moderated by facilitator
Time	10 min presentation plus Q&A	Total 30 to 60 minutes
Target Participants	All groups A to F (see below)	Max 60 participants, tables of 5 to 10
Prerequisites	None	
Materials	None	
Presentation	Slides English	<a href="#">How to approach an OGD initiative</a>
Further reading	OGDCE Guidelines	<a href="#">Section II - Design of an OGD Strategy</a>

### Learning objective

By completing this training module participants will learn about:

- The context of OGD
- Data of relevance accessible by everybody
- Enabling environment for OGD
- Inclusive and participatory process

### Guiding Questions

By completing this module participants will be able to answer the following guiding questions:

- What is the context of OGD?
- What are the main rationales for OGD?
- What are the eight dimensions of the OGD enabling environment?
- Who can use OGD?
- Why inclusive and participatory processes for OGD initiatives are important and how to design them?

### Expected outputs

Through this module participants will be able to explain in their own words:

- The context of OGD
- The OGD Ecosystem
- Why inclusive and participatory processes for OGD initiatives are important and how to design them

## Methodology

This module will be conducted by an expert on OGD for sustainable development. The expert will introduce the module and provide an overview on learning objectives, materials to use, expected outcomes. The expert will then deliver a 10-minute presentation on the subject. The presentation will be followed by a Q&A session moderated by a dedicated facilitator.

## Target Participants

- A. Government leaders (top-level, policy/decision makers)
- B. Government specialists and technicians (mid-level, ICT department, statistical officers)
- C. Civil Society Organizations (CSO) representatives
- D. Independent journalists and representatives from media organizations
- E. Academia (public administration, informatics, statistics)
- F. Private Sector (ICT companies and start-ups)
