UNPAN-AP Editorial Department Publishes Documents on e-Gov and ICT Development

As a powerful tool for economic and social development, ICT aims at bridging the digital divide and aiding economic development by fostering equitable access to modern communications technologies. In modern society, the application of ICT and e-Gov is playing their increasing role to reach MDGs.

This time UNPAN-AP Editorial Department feels honored to have collected and compiled about 150 documents on this specific topic, covering fields such as e-Gov, e-Commerce, e-Society, e-Security, Internet and Informatization Development. Titles of the documents are listed below, and please click on what you are interested in and your feedback is greatly appreciated at unpan-ap@sass.org.cn.
